

Issued: July 12, 2022
Industrial Mechanic (Millwright)

To: ITA Training Providers
Articulation Chair
System Liaison Person
School Districts ITA Training Providers

Subject: **Harmonized Program Transition Update**

From: ITA Program Standards

Effective Date: Immediately

Background: On January 1, 2021, Harmonized Level 4 (HL4) was implemented. All levels are now harmonized, and the pre-harmonized (Current Level) program has been phased out. Gap Training to transition remaining pre-harmonized (Current level) apprentices into the harmonized stream is no longer offered.

Details: Training Providers are no longer offering technical training for the pre-harmonized program. Apprentices who did not train into the harmonized program have now been transitioned to the **HARMONIZED** Industrial Mechanic (Millwright) program. Any technical training and/or work-based training hours on an apprentice's current record have been transferred to the harmonized program.
However, sponsor sign off on missing competencies will be required before completing any further technical training in the harmonized program. Please contact your local Apprenticeship Advisor for next steps at:
